EDUCATION

M.Tech in Computer Science and Engineering — August 2024 - July 2026
National Institute of Technology Delhi — ***CGPA: 9.02/10.0***

B.Tech in Computer Science and Engineering — July 2019 - June 2023
Government Engineering College, Bilaspur (C.G.) — ***CGPA: 9.14/10.0***

EXPERIENCE

iXp Student Intern – SAP India, Bangalore (*Aug 2025 - Jun 2026*)

- Built and deployed an **AI-powered Business Process Mapping tool** on **SAP BTP** using **Flask** and **SAP GenAI Hub**, automating **CRM → S/4HANA mapping** with **LLM processing**, **real-time streaming**, and **secure HANA Cloud integration**.
- Developed an **AI-based Code Remediation Tool** for **CRM → SAP S/4HANA ABAP migration**, triggered via a **custom VS Code extension**, achieving **94% efficiency gain** and reducing remediation time from **~30 minutes to ~3 minutes** per program, depending on code complexity.
- Configured **SAP Build Work Zone enterprise portal** to centralizing **project artifacts, team structure, service transformation, and governance documentation** into a **single source of truth**.
- Worked on **document data migration and process automation**, validating data mappings and supporting **SAP enterprise workflows** while documenting end-to-end business processes.

Web Developer Intern – ABGEC, Bilaspur (*Sept 2022 - Dec 2022*) - GitHub https://abgec.in

- Designed and built a **centralized alumni networking portal**, now **hosting 250+ registered alumni**.
- Led a **10-member development team**, collaborated with **core stakeholders**, improved **website load speed by 30% through lazy loading**, and optimized both **frontend and backend performance**.

PROJECTS

Unified-Query-Interface (*Tech Stack: SQL, NoSQL, API Development, Python, JavaScript***) -** GitHub

- Built a **middleware** that translates **high-level queries into database-specific commands**, enabling seamless querying across multiple **heterogeneous databases**. Optimized query execution, improving **data management efficiency by 40%** and ensuring **consistent user experience** across different database systems.

DataShield : Data Anonymization Platform (*Python, Flask, Numpy, GA, GPU Acceleration*) **-** GitHub

- Built a web tool using **(k, m, t)-anonymity** for **privacy-preserving data publishing**. Used **Genetic Algorithm** and **GPU** to anonymize **500k records in <13s**. Enabled **CSV upload, privacy config, and t-closeness with KL-divergence**.

HealthIQ - Web App (*HTML, CSS, JavaScript, NodeJs, Firebase, IoT*) - GitHub Website

- Built an **IoT & ML-based system** for detecting **food spoilage** and generating **personalized health recommendations**. Improved **food safety accuracy by 85%** through predictive analysis.

EdRoom - Smart Education Companion App (*Tech Stack: Kotlin, XML, Firebase*) - GitHub Website

- Developed a **digital classroom solution** used by **80+ students**, integrating **real-time attendance, doubt resolution, and study material sharing**. Reduced **paperwork by 100%**, and improved **class engagement by 50%** via **instant notifications and synchronized data flow using Firebase Realtime Database**.

TECHNICAL SKILLS

Languages:	C, C++, Python, Kotlin, JavaScript, HTML/CSS, SQL
Backend / Framework:	Flask, Node.js, Express, Gunicorn, REST APIs, Appscript
AI / ML / LLM:	SAP GenAI Hub, LangChain, LLM Integration, Prompt Engineering, NLP, Numpy, Pandas, etc.
SAP Technologies:	SAP BTP, SAP AI Core, SAP HANA Cloud, SAP Build Work Zone, XSUAA, SAP Build
Databases:	MySQL, Firebase, MongoDB, SQLite, SAP HANA Cloud
Android Development:	Kotlin, XML, MVVM, Jetpack
DevOps / Tools:	Git/GitHub, Cloud Foundry (cf CLI), CI/CD, Postman, Figma, Android Studio, VS Code
Others:	Data Structures & Algorithms, IoT, XML/JSON, UI/UX Design, Security

Soft Skills: Time management, teamwork, problem-solving, leadership, analytical thinking, adaptability, and communication.

ADDITIONAL INFORMATION

- Published a research paper titled "**Multi-Objective Task Scheduling in Fog-Cloud Environments Using Proximal Policy Optimization**" in the **IEEE Conference, AIEI 2026.**
- **Certificates:** Full Stack Development (EICT IIT Kanpur), Android Development (Jetpack Compose), More Certificates
- **Responsibilities:** T&P CSIT Sector Head and Coordinator @ NIT Delhi (2025), Technical Lead @ GDSC GECB (2021-22)
- **Achievements:** GATE Qualified (2023, 2024), 5-Star Badge on HackerRank, 3-Star on CodeChef.
