EDUCATION

M.Tech in Computer Science and Engineering

National Institute of Technology Delhi

August 2024 - July 2026

CGPA: 9.23/10.0

B.Tech in Computer Science and Engineering

Government Engineering College, Bilaspur (C.G.)

July 2019 - June 2023

CGPA: 9.14/10.0

EXPERIENCE

AI Developer – SAP India, Bangalore (July 2026 - Present)

- Developed and deployed **AI-powered enterprise solutions** using **SAP BTP, SAP GenAI Hub, Python, and LLMs**, automating business processes and integrating intelligent workflows with **SAP HANA Cloud**, while collaborating with cross-functional teams to deliver scalable AI solutions for SAP enterprise applications.

iXp Student Intern – SAP India, Bangalore (Aug 2025 - July 2026)

- Built and deployed an **AI-powered Business Process Mapping tool** on **SAP BTP** using **Flask** and **SAP GenAI Hub**, automating **CRM → S/4HANA** mapping with **LLM processing, real-time streaming, and secure HANA Cloud integration**.
- Developed an **AI-based Code Remediation Tool** for **CRM → SAP S/4HANA ABAP migration**, triggered via a **custom VS Code extension**, achieving **94% efficiency gain** and reducing remediation time from **~30 minutes to ~3 minutes** per program, depending on code complexity.
- Configured **SAP Build Work Zone enterprise portal** to centralizing **project artifacts, team structure, service transformation, and governance documentation** into a **single source of truth**.
- Worked on **document data migration and process automation**, validating data mappings and supporting **SAP enterprise workflows** while documenting end-to-end business processes.

Web Developer Intern – ABGEC, Bilaspur (Sept 2022 - Dec 2022) - [GitHub https://abgec.in](https://abgec.in)

- Designed and built a **centralized alumni networking portal**, now **hosting 250+ registered alumni**.
- Led a **10-member development team**, collaborated with **core stakeholders**, improved website load speed by **30%** through **lazy loading**, and optimized both **frontend and backend performance**.

PROJECTS

Unified-Query-Interface (Tech Stack: SQL, NoSQL, API Development, Python, JavaScript) - [GitHub](#)

- Built a **middleware** that translates **high-level queries into database-specific commands**, enabling seamless querying across multiple **heterogeneous databases**. Optimized query execution, improving **data management efficiency by 40%** and ensuring **consistent user experience** across different database systems.

DataShield : Data Anonymization Platform (Python, Flask, Numpy, GA, GPU Acceleration) - [GitHub](#)

- Built a web tool using **(k, m, t)-anonymity** for **privacy-preserving data publishing**. Used **Genetic Algorithm** and **GPU** to anonymize **500k records in <13s**. Enabled **CSV upload, privacy config, and t-closeness with KL-divergence**.

EdRoom - Smart Education Companion App (Tech Stack: Kotlin, XML, Firebase) - [GitHub](#) [Website](#)

- Developed a **digital classroom solution** used by **80+ students**, integrating **real-time attendance, doubt resolution, and study material sharing**. Reduced **paperwork by 100%**, and improved **class engagement by 50%** via **instant notifications and synchronized data flow** using **Firebase Realtime Database**.

TECHNICAL SKILLS

Languages:	C, C++, Python, Kotlin, JavaScript, HTML/CSS, SQL
Backend / Framework:	Flask, Node.js, Express, Gunicorn, REST APIs, Appscript
AI / ML / LLM:	SAP GenAI Hub, LangChain, LLM Integration, Prompt Engineering, NLP, Numpy, Pandas, etc.
SAP Technologies:	SAP BTP, SAP AI Core, SAP HANA Cloud, SAP Build Work Zone, XSUAA, SAP Build, Object Store
Databases:	MySQL, Firebase, MongoDB, SQLite, SAP HANA Cloud
Android Development:	Kotlin, XML, MVVM, Jetpack
DevOps / Tools:	Git/GitHub, Cloud Foundry (cf CLI), CI/CD, Postman, Figma, Android Studio, VS Code
Others:	Data Structures & Algorithms, IoT, XML/JSON, UI/UX Design, Security

Soft Skills: Time management, teamwork, problem-solving, leadership, analytical thinking, adaptability, and communication.

ADDITIONAL INFORMATION

- Published a research paper titled **“Multi-Objective Task Scheduling in Fog-Cloud Environments Using Proximal Policy Optimization”** in the **IEEE Conference, AIEE 2026**. [\[Paper Link\]](#)
- Certificates:** Full Stack Development (EICT IIT Kanpur), Android Development (Jetpack Compose), [More Certificates](#)
- Responsibilities:** T&P CSIT Sector Head and Coordinator @ NIT Delhi (2025-26), Technical Lead @ GDSC GECB (2021-22)
- Achievements:** GATE Qualified (2023, 2024), 5-Star Badge on HackerRank, 3-Star on CodeChef.
